

REPOWER^e

Cabin cruiser

Variable without notice
Updated to 04/02/2019

Perfect for those who want sustainability and comfort for their work. With its broad central deckhouse, it can transport 21 people comfortably seated, protected from rain, sun and wind. The raisable top allows easy access and a privileged observation point.

BASIC

The Basic version is silent, sustainable and comfortable. You can have the Repower^e advantages by freely choosing all the available optionals.

BUSINESS

Double battery, refrigerator, remote monitoring, on board Wi-Fi: these are only a few of the this model's characteristics, made for those who want to sail with style.

LUXURY

All the optionals of Business with the advantages of the vacuum infusion process which provides Repower^e Luxury with a high-tech hull, minor weight and higher loading capacity. Engineering excellence in the electric boat range.

SET UP	BASIC	BUSINESS	LUXURY
Maximum load (people)	up to 21 people		
Length over all (with stern platform)	10.56 mt.		
Hull length	9.99 mt.		
Moulded breadth	3 mt.		
Draft at light ship	0.38 mt.		0.34 mt.
Draft at full load	0.48 mt.		0.43 mt.
Light ship displacement	3,500 kg.		3,100 kg.
Full load displacement	5,600 kg.		5,200 kg.
Material used in the hull	Epoxy resin		
Construction technology	Rolling		Infusion
Significant wave heights up to	2 mt.		
Forward lockers	1.10 m ³		
Cabin lockers	2 m ³		
Aft locker	1.40 m ³		
Internal height in cabin	1.63 mt.		
Cabin top lifting	27 cm.		
Description of engines	Full electric		
Designed cruise speed	6.5 kn		7 kn
Max speed at minimum operative load	9 kn	11 kn	12 kn
Max speed at full load	8.5 kn	10 kn	10.5 kn
Engine power at shaft	2 x 11 kW	2 x 20 kW	
Battery pack capacity	20 kWh	40 kWh	
Full people load estimated autonomy at 4÷7 kn	2.5÷12 hours	5÷24 hours	

SUSTAINABILITY
Zero emissions and low maintenance costs.

SILENCE
High technology and no noise pollution.

COMPATIBILITY
Rechargeable with the same e-vehicle charging stations.
